A delightful drive through the gorgeous Tuscan countryside will bring you to Trebotti, a family-owned farm and winery that follows natural agricultural practices. It is among the first farms in Italy to measure and certify its carbon footprint with the goal of achieving zero climate-altering emissions. To that end, Trebotti uses renewable energy, minimally tills the soil, employs closed-cycle composting and recycles its wine-making materials. Instead of cutting the grass with a gas-powered tractor, the farm uses an organic lawnmower—Jane, the donkey. This circular economy eliminates waste and doesn't negatively affect the environment. Following an enlightening tour of the farm, you will sample a selection of wine. Some of them may be free of sulfites, others might be made entirely with native grapes, while still

MRS-BB1 BEYOND BLUEPRINTS - MARSEILLE

Date: Jun 15, 2025 Time: 09:00 AM
Duration: 4.00 Hrs Price: \$269.00

OVERVIEW

Gain an insider's understanding of the challenges in building two avant-garde landmarks by touring them with an architectural historian. Perched along the waterfront, La Villa Méditerranée was designed to embody Marseille's deep bond with the sea. Instantly recognized for its prominent cantilevered overhang, this three-level public space also features a conference center with portholes beneath the sea. As you will discover, that lower floor presented all sorts of unusual circumstances that pushed the boundaries of architecture. The building faces MUCEM, a

national museum devoted to Mediterranean civilizations. Its audacious design includes elements such as tree-like columns, a lacy façade that resembles a fishnet and a slender footbridge that connects it to the towering ramparts of Fort St. Jean. The square-within-a-square shape of MUCEM is classical in one sense but radically different because of the building materials. The concrete filigree that shields much of the structure is particularly stunning.

HIGHLIGHTS

- Tour two futuristic landmarks with an architectural historian that will describe the designs.
- Discover how the challenges of building an underwater conference center were overcome.
- Recognize how a national museum used revolutionary materials to achieve its design.
