**Date: Aug 03, 2025 Time: 07:30 AM**  
**Duration: 3.00 Hrs Price: \$279.00**

OVERVIEW

Explore the avian diversity of Hoonah's lush temperate rainforest and its surrounding tidal waters with a local expert. Your guide will show you the best places to look for birds such as ducks, gulls and bald eagles, starting with the Port Frederick area. Because the waters are nutrient-rich, seabirds flock here to feed. The nearby ferry terminal is a favorite place for pigeon guillemots, one of the most common diving seabirds in southeast Alaska. A brief stop at an active bald eagle's nest will reveal how this easy-to-recognize bird of prey lives. More excellent chances to spot birds, especially cormorants, await you along the Long Island causeway. Then, your guide will lead your small group down a forest trail and through grasslands to observe passerines, the huge order of songbirds that includes sparrows, warblers and flycatchers. The feisty rufous hummingbird is also found here, when not following the largest migration route of any American hummingbird.

HIGHLIGHTS

- Observe a huge variety of seabirds and other avians in their natural habitats.
- Stop at an active bald eagle nest.
- Listen for songbirds in the temperature rainforest.

HELPFUL HINTS

**Date: Aug 03, 2025 Time: 11:30 AM, 12:00 PM**  
**Duration: 2.50 Hrs Price: \$269.00**

OVERVIEW

Watch humpback whales and other marine creatures cavorting in the nutrient-rich waters at Point Adolphus, one of Alaska’s premier observation points. During the cruise, a naturalist will describe the diversity of animals that converge here each summer. They come primarily to feed in the waters that are extraordinarily rich in halibut, salmon and plankton. Point Adolphus is noted for having the highest concentration of humpback whales in the Alaskan panhandle, so be on the lookout for these majestic and intelligent creatures. You can expect them to be breaching the water’s surface, waving their flukes up and down as they dive, and feeding voraciously to fatten up for their winter migration south. You might also observe frolicking Dall’s porpoises, Stellar sea lions, curious harbor seals and Orca whales. You may also see graceful bald eagles swooping down to grab fish in their talons, and perhaps even bears and deer in the surrounding wooded landscape.

ISP-007 HALIBUT FISHING

**Date:** Aug 03, 2025 **Time:** 11:30 AM  
**Duration:** 3.50 Hrs **Price:** \$459.00

OVERVIEW

Go fishing for halibut in Icy Strait, where these giant flatfish are voraciously feeding throughout the summer. Meeting at the dock, you will embark your comfortable cabin cruiser and receive a safety orientation before taking the 20-30 minute ride out to the premier fishing area in Icy Strait. These waters are teeming with halibut as they serve as the main migration corridor for halibut traveling from the Pacific to their summer feeding grounds and spawning streams in southeast Alaska. The largest Pacific flatfish, Alaskan halibut are renowned for their mammoth size. The former state record halibut—a 440-pounder whopper—was landed near Hoonah, and catching a 100-pounder in Icy Strait isn't unusual. Imagine the thrill of hooking one of these monster fish and reeling it in from the depths. It's an amazing experience because halibut are longer than most flatfishes with a width one third of their length, so that husky girth produces a lot of resistance. You will spend approximately 2 1/2 hours on the water, fishing with bait that may include herring, salmon and octopus, which is one of the halibut's favorite meals. If you catch one, you'll notice that halibut has smooth scales, a light-colored bottom side and a darker top. The colors are a natural camouflage that mimics the hues of the ocean floor and water. Not only are these waters home to halibut, they are also filled with whales, sea lion, and seals so come prepared with your camera and binoculars. At the conclusion of your fishing time, you will head back to the pier where your tour concludes. Please note: This tour includes very limited walking, although there are steps to negotiate to board the fishing vessel. The tour is not available to wheelchair guests or those with mobility concerns. Persons who are prone to sea sickness should take appropriate pre-emptive measures before commencing the tour. Flat, comfortable shoes with a non-slip sole are required and warm layered clothing and waterproof outerwear are recommended as you may be exposed to the elements. Minimum age for participation is 6 years old and children under 18 years of age must be accompanied by a parent or adult guardian. U.S.C.G. regulations require children under 13 years of age to wear a life vest while aboard the vessel. Alaska State Law requires that participants purchase a one-day fishing license which may be purchased for \$25.00 before the start of your excursion. If you land a fish and choose not to

release it, you are responsible for processing and shipping the fish home. Shipping is not available outside the continental U.S. The catching of fish and wildlife sightings are not guaranteed.

HIGHLIGHTS

- Fish for mammoth halibut in an area where 100-pounders are often caught.
- Look for whales, sea lions and seals as you fish

**SIT-013 ARTIST WALK - HOT ITALIAN GLASS**

**Date: Aug 05, 2025 Time: 08:00 AM**

**Duration: 2.50 Hrs Price: \$105.00**

OVERVIEW

Browse Sitka's finest galleries while watching local artists create imaginative works of art in silver, wood, ceramic and glass. Once known as the "Paris of the Pacific," Sitka claims to have had the first opera house, performing arts theater and grand piano on North America's west coast. Sitka still zealously supports its artists, many of whom you will see at work in the cultural district. As you meander through the galleries, you will most likely see artists creating magnificent pieces in glass. Some of their techniques are similar to those used by the Italian artisans on the Venetian island of Murano, although the Sitka artists use kilns not roaring furnaces. If you feel inspired to work with glass yourself, ask one of the artists to get you started. It's a common request, so don't be shy. As you will see in many of the finished works, the inspiration was Sitka's natural beauty.

HIGHLIGHTS

- Watch artists masterfully creating works of art in various media.
- See how the artists emulate the glassmakers in Italy.
